

Medical Camps

ICSC conducts medical camps, so that people having disabilities are identified.

About 50 people are identified to have developmental disabilities. in every Panchayath. ICSC also provides medical check up facilities occasionally.

Cultural Programs

ICSC staff and volunteers train children and adults alike in performing arts and giving them opportunities to integrate and interact with mainstream society, thereby creating awareness and eliminating stigma. Theeram has organized a team called 'Theeram Kalavedi' to perform stage programs

Theeram Chaplin (Presanth Madappally Theeram)

India Center for Social Change

Nidhinkumar (Kayyur-Cheemeni Theeram)

Welcome to **India Center for Social Change (ICSC)**, a non- profit organization that seeks to provide support services to children and adults with mental retardation and other developmental disabilities in India.

ICSC, a non-governmental charitable organization, registered under (Reg.No.63/2002/IV) the Government of India Charitable Trust Act, has been working among children with developmental disabilities since 2002.

ICSC is a viable instrument of social change; it emphasizes research, special education, advocacy and health programs, by empowering people with disabilities, their families, and the community at large, to make decisions of life priorities for themselves.
